

GRADUATE STUDENT REGULATIONS

King Mongkut's Institute of Technology Ladkrabang

Office of International Affairs

Regulations of King Mongkut's Institute of Technology Ladkrabang
Re: Graduate Education, B.E. 2559 (A.D. 2016)
……..

Whereas it is deemed expedient to revise the regulations regarding graduate education of King Mongkut's Institute of Technology Ladkrabang to better suit the current graduate program management;

By virtue of Section 22(2) of the King Mongkut's Institute of Technology Ladkrabang Act, B.E. 2551 (A.D. 2008) in conjunction with the resolution of the Academic Council at its 6/2559 Meeting on 28 June 2016, the resolution of the Institute Council's Academic Affairs Subcommittee at its 6/2559 Meeting on 4 July 2016, and the resolution of King Mongkut's Institute of Technology Ladkrabang Council at its 7/2559 Meeting on 28 July 2016, these Regulations are enacted as follows:

Article 1. These regulations shall be called "the Regulations of King Mongkut's Institute of Technology Ladkrabang Re: Graduate Education, B.E. 2559 (A.D. 2016)."

Article 2. These regulations shall come into force from the academic year 2016 onwards.

Article 3. The following shall be repealed:

(1) Regulations of King Mongkut's Institute of Technology Ladkrabang Re: Graduate Education, B.E. 2557 (A.D. 2014).

(2) Regulations of King Mongkut's Institute of Technology Ladkrabang Re: Graduate Education (No. 2), B.E. 2558 (A.D. 2015);

All provisions of other regulations, requirements, orders, notifications, or resolutions insofar as they deal with matters governed by these regulations or are contrary to or inconsistent with these regulations shall be repealed and replaced by these regulations.

Article 4. The President shall be in charge of the execution of these regulations, have the power to issue the regulations, notifications or orders of the Institute that are not contrary to these regulations as necessary, and report the same to the Institute Council.

In case of doubt, or if no provisions are specifically stated in these regulations, or if it is necessary to specially provide a relief of requirements hereunder, judgment of the Academic Council shall be final.

The provision of the Ministry of Education's Notification on Standard Criteria for the Graduate Programs, B.E. 2558 (A.D. 2015), the Ministry of Education's Notification on Standard Framework of the National Higher Education Programs, B.E. 2552 (A.D. 2009), and the Ministry of Education's Notification on the Higher Education Standard Criteria Management Guideline, B.E. 2558 (A.D. 2015), and the amendments thereof shall be applied *mutatis mutandis* in any instance where no other provisions are specifically stated in these regulations.

Chapter 1
General Provisions

Article 5. In these regulations:

“President” means the President of King Mongkut's Institute of Technology Ladkrabang.

“Student” means any student studying for any degree beyond that of the bachelors’ in King Mongkut's Institute of Technology Ladkrabang, including conditional student or research student.

“Academic division” means the academic division that offers educational programs beyond the undergraduate level in King Mongkut's Institute of Technology Ladkrabang.

“Head of academic division” means the Dean and shall include the Executive Vice President assigned to be in charge of a campus.

“Academic Division Committee” means a committee of an academic division in King Mongkut's Institute of Technology Ladkrabang and shall include the Campus Committee.

“External expert” means an expert from outside King Mongkut's Institute of Technology Ladkrabang who is specialized and experienced in a specific area and has qualifications prescribed by these regulations.

“Independent study” means an independent study, individual study, or any professional paper called by any other name that Plan-B graduate students have to submit as partial fulfillment of degree requirements.

“Creative work” means academic work of any other form equivalent to a research paper, which may include a work of art, artistic invention or innovative design that is original or newly created as a product of proper and systematic research of a specific type of arts based on experiment or development from an existing creative concept as a model or the ability to initiate a science that creates esthetic and benefits recognized by a relevant professional community. According to ASEAN classification of arts, the creative works include:

(1) Visual art, which consists of painting, sculpture, print, photograph, motion picture, multimedia, architecture, and other design work;

(2) Performance art, which consists of orchestra, dancing art, and performance of any other forms; and

(3) Literature, which consists of written works and poetry of different forms.

“Special semester” means summer session.

Chapter 2
Academic Administration

Article 6. The academic system is as follows:

6.1 The Institute operates a bi-semester academic system. The academic year is divided into two regular semesters. Each semester consists of not less than 15 weeks and the summer session is with the number of class periods for each course subject equaling those of a regular semester.

6.2 If necessary, the Institute may utilize another academic system and the Ministry of Education's Notification on Standard Criteria for the Graduate Programs, B.E. 2558 (A.D. 2015), or an amendment thereof, shall be applied, *mutatis mutandis*.

6.3 With respect to education in the programs beyond the bachelor's degree offered by the Institute, the program will be made up of a number of courses. The amount of contents of each course shall depend on the relevant program.

6.4 Credit system is utilized for measurement of education. Credit means the unit that is used to represent the amount of education. The number of credits granted for each course is determined as follows:

6.4.1 A theory-based course entailing at least 15 hours of lectures or discussion over one regular semester shall yield one credit.

6.4.2 A practice-based course entailing at least 30 hours of training or laboratory sessions over one regular semester shall yield one credit.

6.4.3 Training or fieldwork practice entailing at least 45 hours over one regular semester shall yield one credit.

6.4.4 Independent study, thesis, project work or any activity entailing at least 45 hours over one regular semester shall yield one credit.

6.5 Course code must be assigned to each course as determined by the Institute.

Article 7. Every program offered must be approved by the Institute before enrollment.

Article 8. Three are three levels of programs offered as follows:

8.1 The Graduate Diploma Program and the Advanced Graduate Diploma Program, each of which consists of courses carrying a minimum of 24 credits in total throughout the entire duration of the program;

8.2 The Master's Degree Program, which consists of a minimum of 36 credits in total throughout the entire duration of the course and is composed of two plans as follows:

8.2.1 Plan A: this is a research-based program where students have to submit a thesis and it is divided into two formats:

8.2.1.1 Plan A1: this consists of a minimum of 36 credits of thesis. Students may be required to take additional courses or carry out other academic activities without credits being counted, but satisfactory achievement must be obtained.

8.2.1.2 Plan A2: this consists of a minimum of 12 credits of thesis and a minimum of 12 credits of coursework.

8.2.2 Plan B: this is a coursework-based program where no thesis is required; but there should be at least 3 credits and no more than 6 credits of an independent study.

8.3 The Doctoral Program, which is available in two schemes:

8.3.1 Scheme 1 is a research-oriented program leading to a thesis that is expected to contribute to the advancement of knowledge. Students may be required to take additional courses or carry out other academic activities without credits being counted, but satisfactory achievement must be obtained. Credits required for this type of scheme are as follows:

8.3.1.1 Candidates who have a master's degree shall produce a thesis worth not less than 48 credits;

8.3.1.2 Candidates who have a bachelor's degree shall produce a thesis worth not less than 72 credits.

The thesis under 8.3.1.1 and 8.3.1.2 must have the same quality and standards.

8.3.2 Scheme 2 is a research-oriented program that requires the students to complete a thesis that is highly academically qualified and contributes to academic and professional advancement of knowledge. There should also be coursework. Credits required for this type of scheme are as follows:

8.3.2.1 Candidates who have a master's degree shall produce a thesis worth not less than 36 credits and take courses of at least 12 credits in total; and

8.3.2.2 Candidates who have a bachelor's degree shall produce a thesis worth not less than 48 credits and take courses of at least 24 credits in total.

The thesis under 8.3.2.1 and 8.3.2.2 must have the same quality and standards.

Article 9. Change of study plan, educational level, or program is allowed within the same academic division in accordance with a resolution of the committee of the relevant academic division. Judgment of the Academic Division Committee shall be final.

Article 10. The Institute may arrange for the undergraduate students to take certain graduate courses in advance in accordance with the Institute's Regulations on Advanced Undergraduate Program Management.

Chapter 3
Academic Staff

Article 11. Categories, number and qualifications of the academic staff:

11.1 Full-time lecturer means a person holding the position of lecturer, Assistant Professor, Associate Professor, and Professor in the Institute, having the responsibilities to achieve the Institute's missions, and working full-time.

11.2 Full-time lecturer of the program means the lecturer whose qualifications are corresponding or related to the major subjects of the program offered and is responsible for teaching or conducting research in such subjects. One lecturer may be a full-time lecturer of more than one program at the same time, but his/her qualifications must be corresponding or related to the subjects of those programs and prior approval of the committee of the academic division, which is his/her organic unit, must be obtained.

11.3 Lecturer in charge of a program means a full-time lecturer of a program who is responsible for program administration, development, and instruction, from planning to quality control, and evaluation. The lecturer in charge of a program must be the lecturer of that program throughout the period such program is offered. One lecturer cannot be in charge of more than one program at the same time, except for multidisciplinary or interdisciplinary program, which one lecturer can be in charge of not more than two programs. There must be no more than two lecturers in charge of one program.

11.4 Special lecturer is not a full-time lecturer, but has obtained approval of the Academic Division Committee and the Academic Council.

11.5 There are two categories of advisors:

11.5.1 General academic advisor means a full-time lecturer responsible for giving a consultation or advice on general academic matters. Provision of a general academic advisor must be at the head of academic division's discretion.

11.5.2 Thesis or independent research advisor

11.5.2.1 A major advisor is a full-time lecturer of the program who is responsible for giving advice on conducting thesis or independent study.

11.5.2.2 A co-advisor is a full-time lecturer of the program or an external expert who co-works with a major advisor for giving advice on conducting thesis or independent study.

11.6 Lecturers for the Graduate Diploma Program

11.6.1 A full-time lecturer of the program must hold at least a master's degree or its equivalent and have a minimum of three academic outputs, which are not a part of his/her study for a degree, published in accordance with the criteria for appointing a person to hold an academic title during the past five years, provided that, at a minimum, one output must be a research paper or creative work that has been published to the general public.

For a vocation-oriented program, a full-time lecturer of the program shall be qualified in accordance with the standards of such profession.

11.6.2 There shall be at least five lectures responsible for a program, each of whom shall hold a doctoral degree or its equivalent, or, at a minimum, a master's degree or its equivalent with an academic title of Associate Professor, and have a minimum of three academic outputs, which are not a part of his/her study for a degree, published in accordance with criteria for appointing a person to hold an academic title during the past five years, provided that, at a minimum, one output must be a research paper or creative work that has been published to the general public.

In case of extreme necessity for a field of study that suffers a lack of lecturers responsible for the program or that has less than 10 students, the relevant academic division shall present to the Institute the number and qualifications of the available lecturers responsible for the program for consideration of the Higher Education Board on a case-by-case basis.

11.6.3 A lecturer giving instructions or teaching staff shall be a full-time lecturer of the program or special lecturer with a minimum of master's degree or its equivalent in that field or in a related field or in the field of the courses taught, be experienced in teaching, and have a minimum of one academic output, which is not a part of the study for a degree, published in accordance with criteria for appointing a person to hold an academic title during the past five years.

A special lecturer may be exempt from a requirement for a master's degree, but shall have a minimum of a bachelor's degree or its equivalent, and has had work experience in the course taught for not less than six years. The special lecturer's teaching hours shall not exceed 50% of the course and the full-time lecturer of the program shall be responsible for such course.

For a vocation-oriented program, a lecturer giving instructions shall be qualified in accordance with the standards of such profession.

11.7 Lecturers for the Advanced Graduate Diploma Program

11.7.1 A full-time lecturer of the program must hold a doctoral degree or its equivalent or, at a minimum, a master's degree or its equivalent with an academic title of Associate Professor, and have at least three academic outputs, which are not a part of the study for a degree, published in accordance with the criteria for appointing a person to hold an academic title during the

past five years, provided that, at a minimum, one output must be a research paper or creative work that has been published to the general public

For a vocation-oriented program, a full-time lecturer of the program shall be qualified in accordance with the standards of such profession.

11.7.2 There shall be at least five lectures responsible for a program, each of whom shall hold a doctoral degree or its equivalent, or, at a minimum, a master's degree or its equivalent with an academic title of Associate Professor, and have a minimum of three academic outputs, which are not a part of the study for a degree, published in accordance with the criteria for appointing a person to hold an academic title during the past five years, provided that, at a minimum, one output must be a research paper or creative work that has been published to the general public.

In case of extreme necessity for a field of study that suffers a lack of lecturers responsible for the program or that has less than 10 students, the relevant academic division shall present to the Institute the number and qualifications of the available lecturers responsible for the program for consideration of the Higher Education Board on a case-by-case basis.

11.7.3 A lecturer giving instructions or teaching staff shall be a full-time lecturer of the program or special lecturer with a minimum of master's degree or its equivalent in that field or in a related field or in the field of the courses taught, be experienced in teaching, and have a minimum of one academic output, which is not a part of his/her study for a degree, published in accordance with the criteria for appointing a person to hold an academic title during the past five years.

A special lecturer may be exempt from a requirement for a doctoral degree, but shall have a minimum of a master's degree or its equivalent, and has had work experience in the course taught for not less than four years. The special lecturer's teaching hours shall not exceed 50% of the course and the full-time lecturer of the program shall be responsible for such course.

For a vocation-oriented program, a lecturer giving instructions shall be qualified in accordance with the standards of such profession.

11.8 Lecturers for the Master's Degree Program

11.8.1 A full-time lecturer of the program must hold, at a minimum, a master's degree or its equivalent and have a minimum of three academic outputs, which are not a part of his/her study for a degree, published in accordance with the criteria for appointing a person to hold an academic title during the past five years, provided that, at a minimum, one output must be a research paper or creative work that has been published to the general public

11.8.2 There shall be at least three lectures responsible for a program, each of whom shall hold a doctoral degree or its equivalent, or, at a minimum, a master's degree or its equivalent with an academic title of Associate Professor, and have a minimum of three academic outputs, which are not a part of the study for a degree, published in accordance with the criteria for appointing a person to hold an academic title during the past five years, provided that, at a minimum, one output must be a research paper or creative work that has been published to the general public.

In case of extreme necessity for a field of study that suffers a lack of lecturers responsible for the program or that has less than 10 students, the relevant academic division shall present to the Institute the number and qualifications of the available lecturers responsible for the program for consideration of the Higher Education Board on a case-by-case basis.

11.8.3 Thesis or independent research advisor

11.8.3.1 The major advisor must be a full-time lecturer of the program who holds a doctoral degree or its equivalent, or, at a minimum, a master's degree or its equivalent with an

academic title of Associate Professor, and has at least three academic outputs, which are not a part of the study for a degree, published in accordance with the criteria for appointing a person to hold an academic title during the past five years, provided that, at a minimum, one output must be a research paper or creative work that has been published to the general public.

11.8.3.2 The co-advisor (if any) must have the following qualifications:

A co-advisor who is a full-time lecturer shall have the same qualifications and academic outputs as the major advisor.

A co-advisor who is an external expert shall hold a doctoral degree or its equivalent and have not less than 10 academic outputs that are similar or related to the subject of the thesis or independent study published in nationally recognized journals or not less than five of such academic outputs published in internationally recognized journals.

If an external expert does not have the qualifications or academic outputs as mentioned above, he/she shall have recognized expertise and experiences corresponding or related to the subject of the thesis or independent study, and be approved by the Institute. Moreover, use of such external expert shall be notified to the Higher Education Board.

11.8.4 A Thesis Examination Committee shall consist of not less than three members who are full-time lecturers of the program and external experts. The Chair of the Thesis Examination Committee must not be the major advisor or co-advisor. Qualifications and academic outputs of the Thesis Examination Committee members must be as follows:

11.8.4.1 A Thesis Examination Committee member who is a full-time lecturer of the program must hold a doctoral degree or its equivalent, or, at a minimum, a master's degree or its equivalent with an academic title of Associate Professor, and has at least three academic outputs, which are not a part of the study for a degree, published in accordance with the criteria for appointing a person to hold an academic title during the past five years, provided that, at a minimum, one output must be a research paper or creative work that has been published to the general public.

11.8.4.2 A Thesis Examination Committee member who is an external expert shall hold a doctoral degree or its equivalent and have not less than 10 academic outputs that are similar or related to the subject of the thesis or independent study published in nationally recognized journals or not less than five of such academic outputs published in internationally recognized journals.

If an external expert does not have the qualifications or academic outputs as mentioned above, he/she shall have recognized expertise and experiences corresponding or related to the subject of the thesis or independent study, and be approved by the Institute. Moreover, use of such external expert shall be notified to the Higher Education Board.

11.8.5 A lecturer giving instructions or teaching staff shall be a full-time lecturer or special lecturer holding a minimum of master's degree or its equivalent in that field or in a related field or in the field of the courses taught, be experienced in teaching, and have a minimum of one academic output, which is not a part of the study for a degree, published in accordance with criteria for appointing a person to hold an academic title during the past five years.

A special lecturer's teaching hours shall not exceed 50% of the course and the full-time lecturer of the program shall be responsible for such course.

11.9 Lecturers for the Doctoral Program

11.9.1 A full-time lecturer of the program must hold a doctoral degree or its equivalent, or, at a minimum, a master's degree or its equivalent with an academic title of Professor, and has at least three academic outputs, which are not a part of the study for a degree, published in

accordance with the criteria for appointing a person to hold an academic title during the past five years, provided that, at a minimum, one output must be a research paper or creative work that has been published to the general public.

11.9.2 There shall be at least three lectures responsible for a program, each of whom shall hold a doctoral degree or its equivalent, or, at a minimum, a master's degree or its equivalent with an academic title of Professor, and have a minimum of three academic outputs, which are not a part of the study for a degree, published in accordance with the criteria for appointing a person to hold an academic title during the past five years, provided that, at a minimum, one output must be a research paper or creative work that has been published to the general public.

In case of extreme necessity for a field of study that suffers a lack of lecturers responsible for the program or that has less than 10 students, the relevant academic division shall present to the Institute the number and qualifications of the available lecturers responsible for the program for consideration of the Higher Education Board on a case-by-case basis.

11.9.3 There are two categories of thesis advisors as follows:

11.9.3.1 The major advisor must be a full-time lecturer of the program who holds a doctoral degree or its equivalent, or, at a minimum, a master's degree or its equivalent with an academic title of Professor, and has at least three academic outputs, which are not a part of the study for a degree, published in accordance with the criteria for appointing a person to hold an academic title during the past five years, provided that, at a minimum, one output must be a research paper or creative work that has been published to the general public.

11.9.3.2 The co-advisor (if any) must have the following qualifications:

A co-advisor who is a full-time lecturer shall have the same qualifications and academic outputs as the major advisor.

A co-advisor who is an external expert shall hold a doctoral degree or its equivalent and have not less than five academic outputs that are similar or related to the subject of the thesis published in internationally recognized journals.

If an external expert does not have the qualifications or academic outputs as mentioned above, he/she shall have recognized expertise and experiences corresponding or related to the subject of the thesis or independent study, and be approved by the Institute. Moreover, use of such external expert shall be notified to the Higher Education Board.

11.9.4 A Thesis Examination Committee shall consist of not less than five members who are full-time lecturers of the program and external experts. The Chair of the Thesis Examination Committee must be an external expert. Qualifications and academic outputs of the Thesis Examination Committee members must be as follows:

11.9.4.1 A Thesis Examination Committee member who is full-time lecturer of the program must hold a doctoral degree or its equivalent, or, at a minimum, a master's degree or its equivalent with an academic title of Professor, and has at least three academic outputs, which are not a part of the study for a degree, published in accordance with the criteria for appointing a person to hold an academic title during the past five years, provided that, at a minimum, one output must be a research paper or creative work that has been published to the general public.

11.9.4.2 A Thesis Examination Committee member who is an external expert shall hold a doctoral degree or its equivalent and have not less than five academic outputs that are similar or related to the subject of the thesis published in internationally recognized journals.

If an external expert does not have the qualifications or academic outputs as mentioned above, he/she shall have recognized expertise and experiences corresponding or related to the subject of the thesis, and be approved by the Institute. Moreover, use of such external expert shall be notified to the Higher Education Board.

11.9.5 A lecturer giving instructions or teaching staff must be a full-time lecturer or special lecturer who holds a doctoral degree or its equivalent, or, at a minimum, a master's degree or its equivalent with an academic title of Associate Professor in that field or a related field the field of the courses taught, be experienced in teaching, and have a minimum of one academic output, which is not a part of the study for a degree, published in accordance with criteria for appointing a person to hold an academic title during the past five years.

In the case where a course taught is not a subject in the program, a lecturer holding a master's degree or its equivalent and having an academic title lower than the Associate Professor may be allowed to give instructions.

A special lecturer's teaching hours shall not exceed 50% of the course and the full-time lecturer of the program shall be responsible for such course.

Article 12. Workload of a thesis or independent study advisor

12.1 One full-time lecturer of the program may supervise the thesis of Master's Degree and/or Doctoral Degree students as follows:

12.1.1 A full-time lecturer of the program who holds a doctoral degree or its equivalent and has required academic outputs may supervise the thesis of not more than five Master's Degree and Doctoral Degree students per semester.

12.1.2 A full-time lecturer of the program who holds a master's degree or its equivalent with an academic title of Associate Professor and the required academic outputs may supervise the thesis of not more than 10 Master's Degree and Doctoral Degree students per semester.

12.1.3 A full-time lecturer of the program who holds a doctoral degree or its equivalent with an academic title of an Assistant Professor or higher, or holds a master's degree or its equivalent and the required academic outputs may supervise the thesis of not more than 10 Master's Degree and Doctoral Degree students per semester.

12.1.4 If it is necessary for a full-time lecturer of the program, who holds a doctoral degree or its equivalent with an academic title of a Professor, to supervise the thesis of more than the stated number of students, the matter must be proposed by the Academic Division Committee to the Academic Council for approval. However, the number of students under such lecturer's supervision must not exceed 15 per semester.

If it is necessary for a lecturer to supervise more than 15 students, approval of the Higher Education Committee must be sought on a case-by-case basis.

12.2 One full-time lecturer of the program may supervise the independent study of not more than 15 Master's Degree students. If a lecturer is both a thesis and an independent study advisor, he/she must not have more than a total of 15 advisees. The proportion of workload shall be as follows: one thesis student equals three independent study students.

12.3 A lecturer responsible for a program must serve as a thesis advisor, and/or a member of the Thesis Examination Committee, and/or a lecturer giving instructions in the program.

Chapter 4

Admission, Selection, and Qualifications of Applicants

Article 13. Admission of students, schedule and methods for the admission shall be as per the Institute's announcement made by Office of the Registrar in each academic year. The number of students to be accepted to each program and the selection process shall be as determined by the Academic Division Committee in accordance with the admission plan or revised admission plan, as the case may be. The Office of the Registrar shall be responsible for issuing the Institute's admission and selection result announcements.

Article 14. Qualifications of Applicants

14.1 Those who wish to enroll in the Graduate Diploma Program must have graduated with a bachelor's degree or its equivalent, or be studying in the final year of a bachelor's degree program or its equivalent, and have other qualifications stated in the Institute's admission announcement.

14.2 Those who wish to enroll in the Advanced Graduate Diploma Program must have graduated with a graduate diploma or a master's degree or its equivalent, or be studying in the final year of a graduate diploma or master's degree program. They should also have other qualifications stated in the Institute's admission announcement.

14.3 Those who wish to enroll in the Master's Degree Program must have graduated with a bachelor's degree or a graduate diploma or be studying in the final year of a bachelor's degree or graduate diploma program. They should also have other qualifications stated in the Institute's admission announcement.

14.4 Those who wish to enroll in the Doctoral Program must have a bachelor's degree with first-class honor, or a master's degree or an advanced graduate diploma, or be in the final year of a bachelor's degree program expecting to graduate with a first-class honor, or be expecting to graduate with a master's degree or an advanced graduate diploma, and have other qualifications as specified in the Institute's admission announcement.

14.5 The applicants must never have been dismissed from other higher education institute due to any improper behavior or misconduct.

14.6 Students to enroll in an international or English program must have additional English competency and skills as specified in the Institute's announcement.

14.7 The applicants must never have been dismissed from other higher education institute due to any improper behavior or misconduct.

14.8 The applicants must not have financial obligations due to the Institute.

14.9 Other qualifications shall be as per the requirements determined by the Academic Division Committee or the Academic Council, which are specified by the Office of the Registrar in the Institute's admission announcement.

Chapter 5

Period of Study

Article 15. The period of study for each program shall be as follows:

15.1 The maximum period of study for a graduate diploma and advanced graduate diploma shall be three academic years.

15.2 The maximum period of study for a master's degree shall be five academic years.

15.3 The maximum period of study for a doctoral degree shall be 8 academic years with regard to candidates who hold a bachelor's degree and 6 academic years with regard to candidates who hold a master's degree.

Chapter 6

Confirmation of Enrollment

Article 16. Applicants, who have passed the selection process, been announced as the Institute's students of different programs, and have the qualifications under Article 14, shall confirm their enrollment with the Institute on the date and time and in accordance with the procedures determined by the Institute in each academic year. The students are required to enter correct information in the enrollment confirmation form and enclose all required evidence or it will be deemed that the students fail to confirm their enrollment

Accepted applicants, who fail to confirm their enrollment with the Institute in person on the designated date, time, and place, shall be deemed to have waived their right, unless they notify the Institute in writing of the reason for such failure and shall show up to confirm their enrollment with the Institute within seven business days from the date designated by the Institute. Upon expiry of such period, the head of academic division shall have the power to consider such enrollment confirmation.

Article 17. There are two categories of students:

17.1 A regular student is a student accepted by the Institute without having to study or conduct research on a trial basis.

17.2 A conditional or research student means a student accepted by the Institute to study or conduct research on a trial basis and, upon satisfaction of all conditions set forth by the committee of the academic division, such student will be eligible to apply for transforming into a regular student. Such application shall be made within a time limit and the period of study will be calculated from the date the student is granted a regular student status.

Chapter 7

Enrollment, Payment of Tuition Fees, and Maintenance of Student Status

Article 18. Enrollment and payment of tuition fees shall be in compliance with the following requirements and procedures:

18.1 Students must register for courses and pay tuition and all other fees in full on the date and in a manner specified by the Institute in the Graduate Studies Calendar.

In a regular semester, students who fail to enroll within the period designated by the Institute must complete the late enrollment within the period of time specified in the academic calendar and pay the late fine at the rate determined by the Institute. Upon expiry of such period, the students are required to apply for a leave of absence.

Students who have enrolled must complete the payment of tuition fee within the period specified in the academic calendar. Upon expiry of such period, the students must pay a late fee at the rate determined by the Institute. At the end of such period, if the students have not paid the tuition fees in full, they will not be allowed by the Institute to take the final examinations in that semester and the students will not be entitled to enrollment in the next semester.

The President shall have the power to grant an exemption of tuition fees.

18.2 Students must register no more than 15 credits in each regular semester.

Students can register no more than 6 credits in a summer session.

Enrollment other than those described above shall require approval of the head of academic division.

18.3 If necessary, the Office of the Registrar may announce discontinuation or addition of any course as notified by the responsible academic division. In case of addition of a course, the academic division shall notify the Office of the Registrar not later than five business days from the first day of that semester.

18.4 Where a student fails to complete the payment of tuition fees, the Institute reserves the right to not issue him/her a transcript and all kinds of certificates. If such student has completed the program, he/she will not be approved for graduation or nominated to the Institute Council to receive the degree until the student has completed payment of tuition fees and fines. This, however, shall not last longer than two years from the last day of classes of that semester.

18.5 Where the program or academic advisor requires a student to take a non-credit course, such course will not merit a grade to be accumulated for the overall credit requirements in the program nor be used for calculation of grade point average.

Article 19. Re-registration must be in accordance with the following stipulations:

19.1 A student whose grade level is lower than C+ or has a U in a course must re-register for that course, unless such course is not open. In that case, the student may choose to register for another equivalent course in that program and approval of the Academic Division Committee must be obtained, except in case of an elective course where the student is allowed to register for the same course or choose another elective course.

19.2 In case of a student whose grade level is lower than C+ or has a U in any course, if re-registration is made, credits of the re-registered course must be added in the calculation of grade point average.

Article 20. If a student is to enroll in courses that have prerequisites, he/she is required to successfully complete the prerequisite courses before enrolling such courses.

Article 21. Registration for maintenance of a student status

21.1 A student, who has earned all credits and passed all course examinations, but has not completed the final examination of thesis, independent study, or any similar course called by another name, must register to maintain his/her student status and pay the student status maintenance fee as determined by the Institute, except in summer session.

21.2 A student has to register to maintain his/her student status within three weeks from the first day of semester. Upon expiry of such period, the student’s maintenance of student status shall require the head of academic division’s approval. Maintenance of the student status must be completed before the date of final examinations of that semester.

21.3 A student enrolling in a program offered in cooperation with another country must register to maintain his/her student status while studying abroad.

Chapter 8

Course Addition, Change, and Withdrawal

Article 22. Course addition, change, and withdrawal shall require approval of the advisor as stipulated by that particular academic division on a case-by-case basis as follows:

22.1 In case of a student who has not registered for thesis or independent study courses, approval of an academic advisor shall be sought.

22.2 If a student has registered for thesis or independent study courses, approval of the major advisor shall be sought.

Course addition, change, and withdrawal must be carried out within the date and time and in a manner stipulated by the Institute in the Graduate Studies Calendar.

Article 23. Course addition, change, and withdrawal must be in accordance with the following stipulations:

23.1 Application for addition or change of courses

23.1.1 Application for addition or change of courses in regular semester and summer session must not be contrary to the requirement of 18.2 and the credits of added or new courses must be included in the calculation of grade point average.

23.1.2 A student who wishes to add or change his/her courses must do so within the period of time indicated in the academic calendar, except in the case where it is necessary to add or change courses upon expiry of such period of time. In such case, the head of academic division shall have the power to grant approval.

23.2 Application for course withdrawal

23.2.1 A student who wishes to withdraw courses must do so within the period of time indicated in the academic calendar. Upon expiry of such period, course withdrawal will not be allowed, except for thesis and independent study courses, which can be withdrawn after such period. However, approval of the Academic Division Committee or its authorized representative must be obtained, except for the case under 29.2.

23.2.2 Credits of the withdrawn courses will not be included in calculation of grade point average.

23.2.3 If a course is closed by relevant academic division, students must contact the Office of the Registrar to change the course with approval of an academic advisor within the designated period of time. If any student fails to contact the Office of the Registrar within such period, it shall be deemed that he/she has withdrawn such closed course and the Office of the Registrar may immediately withdraw such course.

23.2.4 In the case where courses are withdrawn to the point that the remaining credit is zero, it shall be deemed that the student takes a leave of absence.

Chapter 9

Audit Courses

Article 24. An audit course is a course taken by students or outsiders who wish to receive teaching at the graduate level only for improvement of their knowledge. Credits of the audit course will not be included in the program being studied.

Article 25. Registration for an audit course shall be the same as for a regular course.

Article 26. Registration, addition, change, and withdrawal of an audit course must comply with the requirements of Chapter 7 and Chapter 8 of this set of regulations.

Article 27. For evaluation, a student taking an audit course will be graded S or U.

Chapter 10

Assessment and Grading

Article 28. Course assessment

28.1 Results of course assessment must be approved by the Academic Division Committee.

28.2 The credit system must be utilized in course assessment. Courses taken will receive a letter grade and equivalent grade point as follows:

Grade	Score	Meaning
A	4.00	Excellent
B+	3.50	Very Good
B	3.00	Good
C+	2.50	Fairly Good
C	2.00	Fair
D+	1.50	Poor
D	1.00	Very Poor
F	0	Fail
I		Incomplete
S	-	Satisfactory
U	-	Unsatisfactory

28.3 Letter grades of A, B+, B, C+, C, D+, D, and F can be issued for courses that students take examination or have any outputs that can be evaluated.

28.4 If a student receives an 'I' in any course other than thesis or independent study, conversion of the 'I' to another grade must be complete within a period of not more than two weeks from the first day of the next semester. If the student enrolls in a special semester, such special semester shall also be counted. If the student fails to make conversion within the designated period, the Office of the Registrar must notify the academic division to follow up and report the results back to the Office of the Registrar as soon as possible, but not exceeding three weeks from the first day of the next regular semester.

28.5 For seminar, thesis, or other courses rather than those stated under 28.3, the grade of S or U must be awarded.

28.6 Students are deemed to have successfully completed the courses taken if they receive a grade of A, B+, B, C+ or S.

Article 29. Final examinations

29.1 The examinations shall be organized on the date, time and at the venue indicated in the examination schedule.

29.2 Where there is a force majeure causing a student to be unable to take an examination, the student may be allowed to withdraw the course that he/she cannot take the examination only in the following cases:

29.2.1 The student is ill or had an accident and a medical certificate issued by a public, private hospital or health service center of the Institute indicating that the student is unable to take the examination is presented to the Institute to support the consideration.

29.2.2 The student is ordained as a monk at a funeral rite. In this case, a certificate issued by his/her parent or custodian is required to support the consideration.

29.2.3 The student's parent, custodian, brother or sister born to the same father and mother passes away, suffers an accident, or is ill and it is necessary for the student to stay and help with. Evidence supporting such event shall be submitted for consideration of the Institute.

29.2.4 Other cases shall be at sole discretion of the academic division and the Office of the Registrar.

29.3 For students who get the Institute's approval to participate in academic contests or national or international activities contributing to the Institute's reputation, the Institute may arrange for them to take the final examination before or after the scheduled examination date.

29.4 Students who cheat in examinations will not be evaluated for the semester that they committed cheating and will be suspended for one regular semester.

Article 30. Grade Point Average Calculation

30.1 Grade point average will be calculated at the end of each semester. To calculate the grade point average, multiply the number of credits with the grade received and, then, divide the total number of credits registered in for the semester concerned. The final accumulated grade point average may carry only 2 decimal points.

30.2 There are two types of grade point average as follows:

30.2.1 Grade Point Average of Semester (GPS) is the grade point average calculated only for the courses taken in that particular semester.

30.2.2 Total Grade Point Average (GPA) is the grade point average calculated from every course taken from the first semester to the current one.

30.3 Calculation of grade point average for graduation shall comply with the following requirements:

30.3.1 For Scheme 2 Doctoral Program and Plan A2 and Plan B Master's Degree Program, only the number of credits of the enrolled courses specified in the curriculum, including those re-registered courses under Article 19, shall be calculated.

30.3.2 For Scheme 1 Doctoral Program and Plan A1 Master's Degree Program, results of the oral defense of thesis shall be as follows:

Grade	Corresponding score
O (Outstanding)	4.00
G (Good)	3.50
P (Pass)	3.00
U (Unsatisfactory)	0

If a student successfully completes the oral defense, the grading of the last thesis course will change from I to S.

Article 31. Probation

31.1 Students who have obtained a GPA of lower than 3.00 shall be placed on probation. During the probation period, if the students' grade point average of the following semester is lower than 3.00, such students' student status shall be terminated. In this regard, the grade point average shall include the special semester.

31.2 Probationary students will be discharged from the probation status when their GPA is not less than 3.00, including the special semester.

31.3 For students who have earned all credits required by the program, if their GPA is lower than 3.00, it shall be deemed that they have not graduated and have to re-register for courses in accordance with requirements of Article 19. However, this shall not exceed the period specified under Article 15. At the end of such period, if the students' GPA continues to be less than 3.00, the students' student status shall be terminated.

31.4 If a student's GPA is less than 2.50 in any semester, he/she shall be terminated in that semester.

Article 32. Each Doctoral Program student is required to successfully complete the qualifying examinations in order to proceed to the thesis examination. Requirements for qualifying examinations shall be as follows:

32.1 Scheme 1 and Scheme 2 Doctoral Program students have to successfully complete the qualifying examination before taking the title and proposal examination (if any). The students have to pass the qualifying examination within two years from the first day of the first semester they enroll or their student status will be terminated.

32.2 A qualifying examination is a written and/or oral exam.

32.3 The Academic Division Committee must appoint a Qualifying Examination Committee consisting of three members, including the major advisor and full-time faculty staff members with expertise in that field or a related field. A member who is not the major advisor must be appointed to chair the Qualifying Examination Committee.

32.4 The academic division must organize the qualifying examination at least once a year at the time designated by the Academic Division Committee.

32.5 The resolution to give a student an S result on the qualifying examination must be approved by more than half of the Qualifying Examination Committee members.

32.6 Students have to apply for taking the qualifying examination for the first.

32.7 A student who fails the first qualifying examination must apply for re-examination and pay the qualifying examination fee in accordance with requirements of the Institute.

Article 33. Application for taking a comprehensive examination for master's degree students in Plan B shall comply with the following requirements:

33.1 Students must have successfully completed all mandatory courses and registered for all other courses required by the program, except the independent study courses.

33.2 The comprehensive examination includes a written exam and/or an oral exam as determined by the Academic Division Committee.

33.3 The Academic Division Committee must appoint a Comprehensive Examination Committee consisting of three members, including a full-time faculty staff member with expertise in that field or a related field. One member must be appointed as the Chairman.

33.4 The academic division must organize the comprehensive examination at least once a year at the time designated by the Academic Division Committee.

33.5 The resolution to give a student an S result on the comprehensive examination must be approved by more than half of the Comprehensive Examination Committee members.

33.6 A student who fails the first comprehensive examination must apply for re-examination and pay the comprehensive examination fee according to requirements of the Institute.

Article 34. Exam answer sheets must be kept by the academic division for at least one academic year from the date of announcement of the examination results. At the end of such period, the head of academic division shall have the power to order a destruction of these documents.

The Office of the Registrar must keep the score reports of each course for a minimum of five years from the date of announcement of the examination results. After the end of such period, the Director of the Office of the Registrar shall have the power to order a destruction of these documents.

Article 35. The Office of the Registrar is responsible for processing, reporting, and announcing the study results.

Chapter 11

Thesis or Independent Study

Article 36. Before taking thesis or independent study examination, students are required to have passed the Standard English Proficiency Test stipulated in the Institute's announcement.

Article 37. Thesis preparation and examination must comply with the following rules and procedures:

37.1 The Academic Division Committee shall appoint a major advisor and a co-advisor (if any) for each student to provide advice on how to write the thesis, provided that the major advisor must be a full-time lecturer of the program.

37.2 The academic division may require the thesis title and proposal examination to be arranged. The Academic Division Committee must appoint an examining committee comprising not less than three members, including a major advisor and full-time lecturer of the program. A member who is not the advisor must be the chairperson of the committee. The thesis title and proposal must be approved by a resolution of more than half of the Thesis Title and Proposal Examination Committee members before they are submitted to the authorized person under 37.3 for approval.

37.3 The head of academic division or his/her delegate shall have the power to approve the thesis title and proposal (if any) with consent of the Academic Division Committee.

37.4 A student must have his/her thesis title and proposal (if any) approved before the thesis examination date.

37.5 Any changes before the thesis examination shall be made as follows:

37.5.1 If a student wishes to change the thesis title or proposal, he/she shall submit an application to the head of academic division with consent of the major advisor and the head of academic division shall have the power to consider and approve such application with consent of the Academic Division Committee.

37.5.2 If a student wishes to change the major advisor or co-advisor, he/she shall submit an application to the head of academic division and the head of academic division or his/her delegate shall have the power to consider and approve such application with consent of the Academic Division Committee.

37.5.3 In the case where the major advisor is no longer a full-time lecturer of the program, the Academic Division Committee shall appoint a new major advisor within 45 days. At the end of such period, if no major advisor is appointed, the Academic Division Committee shall appoint the general academic advisor to serve as the major advisor on a temporary basis. The product specifying the names of the product owners, namely the student, the terminated major advisor, the academic division, and the Institute, may be used to support an application for appointment of the new major advisor or thesis examination.

Article 38. A student may apply for taking the final oral defense of thesis, which is a condition for graduation, when:

38.1 He/she has earned all credits and completed all courses required by the program;

38.2 He/she has had the product specified under Article 45.4, as the case may be; and

38.3 He/she has passed the Standard English Proficiency Test as indicated in the Institute's announcement and his/her research paper or a part thereof has been accepted for publication according to established procedures.

38.4 For thesis examination at the master or doctoral degree levels, the head of academic division must appoint a Thesis Examination Committee with the Academic Division Committee's consent. The Thesis Examination Committee must comprise a major advisor, full-time lecturer of the program, and external expert(s). A member who is an external expert must be appointed as the chairperson of the committee. At the master's degree level, the committee shall consist of a minimum of three members, but at the doctoral degree level, there shall be at least five committee members.

38.5 Before taking a thesis examination, a student has to submit to the Thesis Examination Committee the draft version of his/her thesis, which has already gained approval of the major advisor, in a number indicated by the Academic Division Committee not less than two weeks in advance.

Article 39. Rules and procedures for an independent study shall be as follows:

39.1 The Academic Division Committee shall appoint a major advisor and a co-advisor (if any) for each student to provide advice on how to conduct the independent study.

39.2 The head of academic division shall appoint an Independent Study Examination Committee with consent of the Academic Division Committee as follows:

The Independent Study Examination Committee shall be composed of a minimum of three members, including the independent study advisor and academic staff. A member who is a full-time lecturer of the program and not the independent study advisor shall be appointed as the chairperson.

Article 40. The formats of thesis and independent study as well as how to conduct inspections to ensure that students' thesis and independent study will not repeat with those of other persons shall be as stated in the thesis and independent study manual determined by the academic division.

Article 41. For an evaluation of the final oral defense of thesis or independent study, which is a condition for graduation, the grading system shall be as follows:

Grade	**Meaning**
O	Outstanding
G	Good
P	Pass
U	Unsatisfactory

To pass the thesis or independent study examination, which is a condition for graduation, the student is required to obtain approval of more than half of the thesis or independent study examination committee members. In case of any conflict regarding the examination result, the chairperson shall have the power to make final decision. The examination result shall also be concluded by the chairperson.

Article 42. Rules and procedures for the final oral defense of thesis are as follows:

42.1 The final oral defense of a thesis at the master or doctoral degree level must be open for interested people to attend.

42.2 In the case where the student has passed the final oral defense, he/she has to complete the revision to the thesis (if any) as required by the Thesis Examination Committee. Then, the final version of the thesis, which has been checked and verified by the thesis advisor, shall be submitted to the academic division within 90 days from the date of completion of the examination to successfully complete the thesis examination. If the student fails to do so after the expiry of such 90-day period, it shall be deemed that he/she does not pass the thesis examination and the result will be submitted by the academic division to the Office of the Registrar.

42.3 A student is entitled to take the examination for not more than two attempts. If he/she fails the first attempt, the student can apply for one more examination and pay the thesis examination fee in accordance with the Institute's regulations.

Article 43. Rules and procedures for independent study examination are as follows:

43.1 The independent study examination shall be conducted openly and interested people may be allowed to observe the examination.

43.2 In the case where the student has passed the independent study presentation, he/she has to complete the revision to the independent study report (if any) as required by the examination committee. Then, the final version of independent study report, which has been verified and approved by the independent study advisor, shall be submitted to the academic division within 90 days from the date of completion of the examination to successfully complete the independent study examination. If the student fails to do so after the expiry of such 90-day period, it shall be deemed that he/she does not pass the independent study examination and the result will be submitted by the academic division to the Office of the Registrar.

43.3 In the case where a student fails an independent study examination, he/she must apply for another independent study examination and pay the independent study examination fee according to the Institute's regulations.

Article 44. Theses or independent study reports and all intellectual properties created shall be the Institute's properties, unless it is otherwise agreed in writing.

Chapter 12

Graduation

Article 45. Students at each level who are eligible to graduate from the Institute must possess the following qualifications:

45.1 Earning all credits and completing all courses required by the program;

45.2 Complying with all conditions and requirements of each program;

45.3 Meeting the English proficiency standard stated in the Institute's announcement; and

45.4 Meeting the following conditions for each educational level:

45.4.1 Graduate Diploma and Advanced Graduate Diploma Programs: Students must earn all credits required by the program and obtain a GPA not lower than 3.00 on a 4.00 point GPA scale or its equivalent.

45.4.2 Master's Degree Programs

45.4.2.1 Plan A1

45.4.2.1.1 Students must successfully complete thesis presentation and final oral defense with approval of the Thesis Examination Committee; and

45.4.2.1.2 The thesis must be published or at least one journal paper resulting from the work of the thesis must be published or accepted for publication in national academic journals in the database of an internationally recognized organization and have the citation index accepted in that field; or

45.4.2.1.3 At least two articles, which are a part of the thesis, must be published or accepted for publication, either in the form of short paper or whatsoever, in national academic journals, or presented to the national or international academic conference, provided that the full paper is published in the reports of the academic conference (proceedings).

45.4.2.1.4 In case of a dual degree program offered in cooperation or under academic agreement with an overseas educational or research institute, students may adopt the graduation requirements of such overseas educational or research institute when applying for graduation from the Institute.

45.4.2.2 Plan A2

45.4.2.2.1 Students must earn all credits required by the program and obtain a cumulative GPA not lower than 3.00 and a grade of not lower than C+ on each individual course required for graduation; and

45.4.2.2.2 Students must successfully complete thesis presentation and final oral defense with approval of the Thesis Examination Committee; and

45.4.2.2.3 At least one article, which is a part of the thesis, must be published or accepted for publication, either in the form of short paper or whatsoever, in national or international academic journals, or presented to the national or international academic conference, provided that the full paper is published in the reports of the academic conference (proceedings).

The academic journal or conference in which the thesis is published or presented as a condition for graduation must be approved by the Academic Division Committee and the Academic Council. In this regard, the student applying for graduation must be named first on the article among the group of students.

45.4.2.3 Plan B

45.4.2.3.1 Students must earn all credits required by the program and obtain a cumulative GPA not lower than 3.00, a grade of not lower than C+ on each course required for graduation, and not lower than P for the independent study course; and

45.4.2.3.2 Students must pass the comprehensive examination, whether in the form of written exam and/or oral exam.

45.4.3 Doctoral Degree Programs

45.4.3.1 Scheme 1

45.4.3.1.1 Students must pass the qualifying examination; and

45.4.3.1.2 Students must successfully complete thesis presentation and final oral defense with approval of the Thesis Examination Committee; and

45.4.3.1.3 At least two articles, which are a part of the thesis, must be published or, at a minimum, accepted for publication in national academic journals in the database of an internationally recognized organization and have the citation index in ISI or SJR database.

45.4.3.1.4 In case of a dual degree program offered in cooperation or under academic agreement with an overseas educational or research institute, students may adopt the graduation requirements of such overseas educational or research institute when applying for graduation from the Institute.

45.4.3.2 Scheme 2

45.4.3.2.1 Students must complete all courses required by the program and obtain a cumulative GPA not lower than 3.00 and a grade of not lower than C+ on each course required for graduation; and

45.4.3.2.2 Students must pass the qualifying examination; and

45.4.3.2.3 Students must successfully complete thesis presentation and final oral defense with approval of the Thesis Examination Committee; and

45.4.3.2.4 At least two articles, which are a part of the thesis, must be published or, at a minimum, accepted for publication in national academic journals in the database of an internationally recognized organization and have the citation index in ISI or SJR database; or at least one article, which is a part of the thesis, must be published or, at a minimum, accepted for publication in a national academic journal in the database of an internationally recognized organization with citation index in ISI or SJR database, and one article in a national academic journal of SCOPUS database, or one article in national academic journal in the database of a domestic organization, which is Thai-Journal Citation Index Centre (TCI), only for the list of Category 1 journals; or

45.4.3.2.5 At least one article, which is a part of the thesis, must be published or, at a minimum, accepted for publication in national academic journals in the database of an internationally recognized organization and has the citation index in ISI or SJR database; and

45.4.3.2.6 At least two articles, which are a part of the thesis, must be published or, at a minimum, accepted for publication, and presented to the international academic conference with the full paper being published in the reports of the academic conference (proceedings) or published as short paper.

The academic journal or conference in which the thesis is published or presented as a condition for graduation must be approved by the Academic Division Committee and the Academic Council. In this regard, the student applying for graduation must be named first on the article among the group of students.

45.5 Submitting the final version of the thesis or independent study report, which has been approved by the examination committee or its delegate; and

45.6 Having no financial obligations due to the Institute.

Article 46. A student's graduation date is considered the date on which he/she has possessed all qualifications under Article 45.

Chapter 13

Transfer of Credits and Research Outputs

Article 47. The Institute has determined the requirements for transfer of academic records from within the Institute and other higher education institutions as follows:

47.1 Criteria for course matching

47.1.1 A course or module must match three-fourths or more of the content of the equivalent KMITL course or module;

47.1.2 Course matching must be approved by the committee of the academic division, which owns that course.

47.2 Criteria for transferring credits

47.2.1 Transfer of credits refers to the acceptance of credits from a course or a module that students have completed before confirming enrollment with the current program.

47.2.2 In case of a transfer of academic records of a course or module in the program offered in cooperation with an overseas institution, the transfer can be made under the memorandum of understanding.

47.2.3 Transfer of credits is only allowed for the courses that students have obtained a grade level of not lower than B, or 3.00 or its equivalent, or an S result or its equivalent.

47.2.4 Students must transfer credits not more than one-third of the total credits required by the program. After the transfer of credits, the students must spend at least one academic year studying at the Institute.

47.2.5 The course or module whose credits are to be transferred must be taken within the past five years.

47.2.6 A master's degree candidate who has graduated with a graduate diploma and is taking the same or related field of study may transfer credits not exceeding 40% of the total credits required for graduation.

Article 48. In case of a doctoral degree student whose status was terminated due to expiry of the maximum period of study under Article 15 or failure to pass in the qualifying examination within the designated period and has become a new student within one year after the termination date, if he/she enrolls in the same program, a transfer of his/her research output will be accepted in accordance with the following criteria:

48.1 Transferable research output must be one that has been published in an international academic journal with consent of the Academic Division Committee and the Academic Council; and

48.2 The research output must have been accepted for publication or published not over two years from the date of publication to the date of the student's registration as a doctoral student. If the journal only indicates the month and year of publication, the last day of the month shall be regarded as the date of publication; and

48.3 The research output to be transferred must be related to the thesis title; and

48.4 The research output must specify the authors consisting of the student and the major advisor who is the same person as the current major advisor, the academic division, and the Institute, except where the major advisor named in the research output has his/her status as a full-time lecturer terminated. Then, such research output may be transferred.

48.5 Approval of the Academic Division Committee and the Academic Council must be obtained; and

48.6 The transfer of credits must comply with the requirements set forth in Article 47.

Chapter 14

Leave of Absence, Resignation and Termination

Article 49. Leave of Absence

49.1 A leave of absence refers to a leave taken for an entire semester. If a student has registered for courses, such registration shall be considered to have been terminated and all registered courses will not appear in the transcript for the semester that the student has taken leave. The student will not be able to convert the I result to another grade.

49.2 A student may apply for a leave of absence for one regular semester at one time and the leave cannot be taken consecutively for over one academic year. The student, or his/her custodian in the case where the student is unable to be present on his/her own, shall submit a petition for leave of absence as well as evidence, as the case may be, to Director of the Office of the Registrar. Application for leave of absence must be completed before the final examinations of the semester that the student wishes to take a leave of absence.

49.3 A student whose petition for leave of absence has been approved must make payment of fee to maintain his/her student status for every regular semester from which he/she is taking a leave, except for the semester that tuition and other fees have already been paid.

49.4 A student who wishes to take a leave of absence for more than one academic year must gain approval of the Director of the Office of the Registrar and the student is required to pay the fee for maintenance of his/her student status in every regular semester.

49.5 The period of the absence must be computed as part of the duration of study in the program.

Article 50. Student status will be terminated under the following circumstances:

50.1 Death;

50.2 Resignation or termination of student status under Article 31;

50.3 Penalty of dismissal under Chapter 15;

50.4 Lack of qualification under Article 14;

50.5 Failure to register for courses under Article 18 or to apply for a leave of absence;

50.6 The maximum period of study under Article 15 is exceeded, provided that the period of time for maintenance of student status, leave of absence, or penalty suspension is computed as a part of the period of study;

50.7 Obtaining a GPA lower than 2.50;

50.8 Cheating in an exam after having been punished for such wrongdoing before;

50.9 The student has obtained approval for graduation;

50.10 The student is unable to transform into a regular student within the specified period of time;

50.11 No progress has been made in the student's thesis or independent study. The student has obtained a U for two consecutive semesters, excluding the leave of absence period;

50.12 Failure to pass the final oral defense of a thesis in the second attempt;

50.13 Failure to make payment of tuition fees within the time specified under 18.4; and

50.14 Failure to pass the qualifying examination within the time specified under 32.1.

Article 51. A student, who wishes to resign from the program, shall submit an application for resignation to Director of the Office of the Registrar together with consent of the advisor and Program Director or the head of the academic division for approval. No approval will be granted if the student has financial obligations due to the Institute.

Article 52. At the end of every semester, Director of the Office of the Registrar will announce the names of students who are terminated and remove them from the student register.

If necessary, a student whose status has been terminated under 50.5 or 50.14 may submit an application to resume his/her status with approval of the President and consent of the head of academic division that the student belongs to. In this regard, the student is required to apply for retrospective leave of absence and make payment of tuition fees. Such application must be made no later than two years from the date of termination and not contrary to the period of study requirement under Article 15.

Chapter 15

Student's Discipline

Article 53. Students must strictly conform to the discipline hereunder at all times. Failure to comply with the following shall be regarded as violation of discipline and punishment shall be imposed as defined in these regulations.

53.1 Students must dress appropriately.

53.2 Students must show respect to lecturers and staff of the Institute.

53.3 Students must behave in an appropriate manner and must not constitute any disgrace to themselves or the Institute.

53.4 Students must not drink liquors or consume intoxicants in the Institute.

53.5 Students must not smoke during instructions or examinations or in any areas in the Institute where smoking is prohibited.

53.6 The following acts are considered serious disciplinary offenses:

53.6.1 Slander that causes others to suffer damages as well as instigating, supporting or leading any chaotic event within the Institute's premises, such as quarrel, destruction of property of the Institute or governmental agency, delinquent acts, and demonstration consisting of more than 10 persons in violation of laws;

53.6.2 Drinking liquors or consuming intoxicants in the Institute;

53.6.3 Using illegal or narcotic drugs;

53.6.4 Carrying weapons or illegal articles;

53.6.5 Cheating in exams;

53.6.6 Displaying any behavior that is disrespectful to lecturers or staff members of the Institute who carry out duties in accordance with laws or requirements or regulations of the Institute, which is deemed a serious disciplinary offense by the Academic Division Committee;

53.6.7 Forging another person's signature and using it as evidence when contacting the Institute, which causes damages to the Institute;

53.6.8 Engaging in any types of gambling in the Institute;

53.6.9 Carrying out any act that damages or defames the Institute, such as being hired to take exam for other persons, either in or outside the Institute;

53.6.10 Copying other person's thesis or academic paper or independent study or using the same academic paper with another person in applying for graduation;

53.6.11 Hiring other person to write a thesis or independent study for oneself or any other person; and

53.6.12 Carrying out any other act that is deemed a serious disciplinary offense by the Discipline Committee and the President.

Article 54. There are three modest disciplinary actions as follows:

54.1 Verbal warning;

54.2 Probation; and

54.3 Compensation for damage caused.

Article 55. There are three serious disciplinary actions as follows:

55.1 Suspension of study;

55.2 Expulsion; and

55.3 Dismissal.

Article 56. If the student commits any disciplinary offenses under Article 53, except for 53.6.5, the President may order a penalty proportional to the offense committed. However, if there is any reason for mitigation of the penalty, such reason may be taken into consideration. After the President has issued and signed the penalty order, the academic division shall, without delay, notify the student and the Office of the Registrar of such penalty order.

Article 57. In the case where the student cheats in exam under 53.6.5 and there is clear evidence of such cheat, the head of academic division must conduct and complete an investigation of the student's offense as soon as possible from the date of detection and propose the investigation result to the President to impose a penalty under 29.4. After the President has issued and signed a penalty order, the academic division shall notify the student of such penalty order without delay as well as the Office of the Registrar.

Article 58. In the case where the student commits any offense under Article 53, except for cheating in exam under 53.6.5, the Discipline Committee appointed by the Institute shall have the power to initiate a disciplinary action against the accused student immediately to investigate the offense in a fair and quick manner. Recommended penalty shall then be submitted to the President for approval. After the President has issued and signed a penalty order, the academic division shall notify the student of such penalty order without delay as well as the head of academic division that the student belongs to and the Office of the Registrar.

Appointment, assignment of power and duties, and meeting of the Discipline Committee shall be made in the form of the Institute's announcement.

Article 59. The student on whom a penalty is imposed in accordance with Article 54 or Article 55 shall have the right to file an appeal against the penalty with the President within 30 days from the date of receipt of the penalty order. The appeal must be made in writing and signed by the appellant.

After the President has considered the appeal, the Discipline Committee appointed by the Institute or the head of academic division, as the case may be, shall proceed in accordance with the he President's order without delay.

Chapter 16

Dignity and Honor of Students to Receive the Degree

Article 60. Students who are suitable for being nominated by the Institute Council to receive a degree shall not only have dignity, honor, and morality, maintain good reputation, prestige and benefits of the Institute, comply with the student's discipline and regulations of the Institute, but also need to have the following qualifications:

60.1 Not being diagnosed as a person of unsound mind by a medical doctor or adjudged as incompetent or quasi-incompetent by the court;

60.2 Not being imprisoned pursuant to a final judgment or undergoing criminal prosecution, except for offenses arising out of negligence or for petty offenses;

60.3 Not being a person of evil or immoral behavior, disgracing the Institute;

60.4 Not causing disunity or fight among fellow students or between the Institute's students and those of another institution or other persons;

60.5 Not displaying any behavior disrespectful or insulting towards the Institute's lectures or personnel;

60.6 Not interfering with the power to administer the Institute;

60.7 Not intentionally causing serious damage to the Institute's property;

60.8 Not copying or hiring another person to write for oneself a thesis or independent study report or any other academic output, which is essential for graduation; and

60.9 Not having any financial obligations due to the Institute.

Article 61. To apply for approval to receive the degree, a student shall comply with and adhere to all requirements and procedures as well as date, time and place indicated in the Institute's educational calendar, and pay the fee to receive the degree as required by the Institute.

Article 62. A student who lacks any qualifications under Article 60 shall be regarded as lacking dignity and honor and not being eligible for the degree. Any one of the following decision may be made with respect to such student:

62.1 The student will not be nominated to receive the Institute's degree; or

62.2 Nomination for receiving the degree will be delayed for one to three academic years in proportion to severity of the offense committed.

Article 63. At the end of each academic year, if there are any students lacking the qualifications under Article 60, the Academic Division Committee shall proceed in accordance with Article 62 and submit the result to the Office of the Registrar to further propose to the Academic Council and the Institute Council for consideration. In case of a student who is considered by the Institute Council as unsuitable for receiving the degree, if he/she deems that he/she is treated unfairly, the student has the right to file a written and signed appeal with the President. A certified copy of the appeal must also be submitted to the head of academic division within 15 days from the date the student is aware that he/she is considered unsuitable for receiving the degree.

Article 64. The head of academic division must submit a clarification of the appeal to the Institute within seven days from the date of receipt of the certified copy of such appeal under Article 63.

Article 65. When the President has received the appeal together with the clarification given by the head of academic division, they must be submitted to the Academic Committee for consideration immediately in order to be further proposed to the Institute Council for consideration.

Chapter 17

Revocation of the Degree or Diploma

Article 66. The Institute may consider revoking a degree or diploma that has been approved for any graduate in the following cases:

66.1 The graduate does not possess all qualifications of a candidate or a graduate of the program that he/she has graduated under Article 14 or Article 45. Revocation of the degree or diploma shall be effective from the date the Institute Council approves the award of a degree or diploma to such person.

66.2 If a thesis, independent study, or other academic output, which is essential for the graduate's graduation, is a reproduction of the work of another person or the graduate him/herself or has not been conducted by the graduate, revocation of the degree or diploma shall be effective from the date the Institute Council approves the award of a degree or diploma to such person.

66.3 If the graduate has committed any act that seriously damages the Institute or dishonors the degree or diploma awarded to him/her, the revocation shall be effective from the date the Institute Council resolves to revoke the degree or diploma.

Transitory Provisions

Article 67. In case of doubt regarding application of these regulations, the President shall issue orders as he/she may deem fit for a particular matter on a case-by-case basis. If such matter is related to students enrolling before these regulations come into effect, the President must also take the earlier regulations, rules or criteria into consideration when making a decision.

Article 68. During the period of no rules, notifications, orders, or resolutions being issued under these regulations, those rules, notifications, orders, or resolutions in force on the date these regulations come into force shall apply, *mutatis mutandis*, as far as they are not contrary to these regulations until there are rules, notifications, orders or resolutions issued for the application of these regulations

Regulations of King Mongkut's Institute of Technology Ladkrabang
Re: Graduate Education (No. 2), B.E. 2560 (A.D. 2017)
……..

To ensure efficient management of the graduate education and compliance with Notification of the Ministry of Education on Graduate Program Standard Criteria, B.E. 2558 (A.D. 2015);

By virtue of Section 22(2) of the King Mongkut's Institute of Technology Ladkrabang Act, B.E. 2551 (A.D. 2008) in conjunction with the resolution of the Academic Council at its 1/2560 Meeting on 17 January 2017, the resolution of the Institute Council's Academic Affairs Subcommittee at its 2/2560 Meeting on 6 February 2017, and the resolution of King Mongkut's Institute of Technology Ladkrabang Council at its 2/2560 Meeting on 22 February 2017, these Regulations are enacted as follows:

Article 1. These Regulations shall be called "the Regulations of King Mongkut's Institute of Technology Ladkrabang Re: Graduate Education (No. 2), B.E. 2560 (A.D. 2017)."

Article 2. These Regulations shall come into force from the academic year 2016 onwards.

Article 3. The provision of Article 45.4.2.1.3 of the Regulations of King Mongkut's Institute of Technology Ladkrabang Re: Graduate Education, B.E. 2559 (A.D. 2016) shall be repealed and replaced by the following:

"45.4.2.1.3 To have one paper, which is a part of the thesis, published in a national or international academic journal recognized by the Civil Service Commission on Institutions of Higher Education and the Academic Council."

Announced on this 15th day of June 2017
